# Cardinham School Newsletter

## A word from Mr Larcombe .....

ee

Dear Cardinham School Community,

It is great to be back at school ready for a new full term ahead. For those who I haven't yet caught on the gate over the past week, myself and the team here at Cardinham wish all of our families a very happy New Year! I hope that you had a restful Christmas break and are ready for the Spring term.

I want to take this opportunity to thank everyone for their cooperation and understanding over recent school changes in school opening and closing times. It has been a first week back where we have been hit by ice and then by a storm, and I know many have had to significantly change their plans to adapt to the changes in the school day. With situations like the past week, I will do everything possible to keep the school open but the safety of our school community and staff here must take absolute priority. Thank you again for your understanding and your continued support around this.

Looking ahead, we have a term filled with exciting learning in the classrooms and opportunities outside of our usual timetable starting with Cross-Country next week. If you have any questions around the upcoming term then please do get in contact and please stay tuned for further updates on upcoming events.

I look forward to seeing many of you on the gate on over the upcoming days.

Best Wishes  
Mr Larcombe

## Discover. Be Inspired. Succeed

This week Hedgehog class have been inspired by the weather to learn about the season of winter and use the knowledge of winter trees to draw using charcoal in art and create landscape pictures. There has been lots of discovery around ice and how it melts over time. The children succeeded in making their own ice sculptures using water and moulds.

In Computing, Squirrels have been diving into the world of digital music! We began by exploring the fascinating sounds inspired by Gustav Holst's Planets suite, listening carefully to how music can tell a story. Then, the children took their creativity a step further by experimenting with rhythm and pace using Chrome Music Lab. They created rhythms to represent an animal of their choice, some chose lively woodpeckers, galloping horses, and even the laughing call of a kookaburra! It's been wonderful to see their excitement as they compose their own patterns and discover how technology can make music magical.

## Deer

eee

It was so lovely to see all of Deer class again after the Christmas break! Despite the turbulent week of weather, they have all worked incredibly hard and I know this will only continue over the half term. We began our learning about the water cycle in Geography this week, focusing on the enquiry question 'How does the water cycle influence our everyday lives?' Please see the attached vocabulary overview for all of the technical terms the children are learning! Our class text this half term is 'The Lion, the Witch and the Wardrobe'. I am certain that the children will enjoy this book as much as the others.

Please ensure you are reading with your child during the week; reading records are checked every Friday. Spelling practice at home is also an expectation - updated spelling books are sent home on Monday with the relevant test being completed the following Monday.

The deadline for applications is **15 January 2026**

**Do you have a child born between 1 September 2021 and 31 August 2022?**

If so, you will need to apply for a place in a reception class in September 2026 for your child by the deadline of **15 January 2026**.

**Please note:** you will need to apply even if your child attends a school's nursery or pre-school class. If a school is oversubscribed the fact that a child attends a school's nursery or pre-school, or a local nursery or pre-school, does not automatically guarantee a place at that school. The school's oversubscription criteria will be used to allocate places. Visit our website or contact us for more information.

Visit [www.cornwall.gov.uk/admissions](http://www.cornwall.gov.uk/admissions) for more information and to access the online application system.

If your child is absent from school without authorisation, you will be committing an offence under the Education Act 1996. We may submit a request to Cornwall Council for a Penalty Notice to be issued, in accordance with Sections 444A and 444B of the said Act. Penalty Notices are issued per liable parent, per child and each carry a fine of £80 if paid within 21 days or £160 if paid after this but within 28 days.

If your child is further absent from school without authorisation within any 3-year period, you will be committing a further offence under the Education Act 1996. We may submit a request to Cornwall Council for a Penalty Notice to be issued, in accordance with Sections 444A and 444B of the said Act. Penalty Notices for a second offence are issued per liable parent, per child and each carry a fine of £160, payable within 28 days. Importantly, fines per parent will be capped to two fines within any three-year period. Once this limit has been reached, other action such as a parenting order or prosecution will be considered.

Failure to pay the Penalty Notice may also result in legal action. If you are prosecuted and attend court because your child has not been attending school, you could get a fine of up to £2,500. Cornwall Council may also apply for the costs incurred in taking the matter to Court, including legal costs. Absence not authorised by the school may also result in a prosecution in the Magistrates' Court under Section 444(1) or Section 444(1A) of the Education Act 1996, leading to a fine of up to £2,500 and/or a custodial sentence. Again, Cornwall Council may also apply for the costs incurred in taking the matter to Court, including legal costs. Money raised from fines is only used by the local authority to cover the costs of administering the system, and to fund attendance support. Any extra money is returned to the government.
